

POOL DISTRIBUTION & CONSOLIDATION

Extending Your Supply Chain

If you're looking to reduce inventory along with warehousing and transportation costs, while minimizing transit times, consider our pool distribution and consolidation services in conjunction with our truckload and warehousing options.

Through our parent company, we offer an integrated network of services and assets to help you extend your supply chain.

- Pickup from multiple vendors and consolidate P.O.'s
- End-to-end visibility / tracking for entire transaction at P.O. level
- Reduced freight costs
- Streamlined delivery to distribution centers – speed to market
- Vendor network optimization for pool points
- Less handling from LTL carrier – reduce claims / less damage
- On-demand warehousing – over 200 flex warehouses across the U.S. and growing
- National coverage
- Reduced carbon footprint through reduced empty miles
